

Guideline for Re:cycling deliveries

Accepted

- ✓ All remnants of Swisspacer Ultimate and Swisspacer Advance spacers
- ✓ All colours and widths accepted – materials do not need to be sorted
- ✓ Complete spacers, cut sections, broken parts, and small fragments – size of the individual pieces does not matter
- ✓ All material must be placed in the provided transport container, which must be completely sealed to prevent contamination and injury
- ✓ Accessories attached to the spacer bar types listed
- ✓ Contents fit entirely within the container and remain below its top edge
- ✓ Store cardboard collection containers and their contents indoors, protected from moisture

Not accepted

- ✗ No Swisspacer Ultimate Pro spacer bars
- ✗ No spacer bars from other manufacturers (Swisspacer only)
- ✗ No spacer bars with butyl or sealant residues
- ✗ No metal materials (e.g. connectors, tools)
- ✗ No accessories outside the Swisspacer portfolio
- ✗ No open or unsealed transport containers
- ✗ No heavily contaminated or soiled profiles
- ✗ No pure accessory waste
- ✗ No stacking of materials above container height
- ✗ No exposure of cardboard containers or materials to rain or outdoor conditions
